

AIChE Student Chapter Maharashtra Institute of Technology's

Presents

CHEMFIE

Unleash your creativity through the lens capturing basic chemical engineering processes.

Rules

1. Each team will be given a badge before the commencement of the event. In the first round each team is supposed to click some minimum number of pictures of objects around the campus where they can relate chemical engineering. The most apt description of the object should be provided in the caption.

(e.g. Oil sample-process=Distillation)

2. Each Team is supposed to post the photos on Chemovision fb page. The caption should include the following-

Name Of the object

Process used to make it

Team Name

3. Top teams with apt description will qualify for the next round.

4. The person presenting all the correct pictures along with the best suitable description wins the competition.

5. The team won't be provided with a second chance to post the same

picture with a changed caption.

6. Participants need to click their pictures along with their badges. It is mandatory. Also, badges must be clearly visible in the photo.

7. Pictures must relate to chemical engineering applications otherwise they won't be entertained.

Pictures must be posted within the time slot on the CHEMOVISION facebook page along with suitable caption otherwise they won't be considered.

8. Pictures can be posted only once. Change in caption for the same picture won't be considered.
